

## Technical Data Sheet

### ANHYDROTETRACYCLINE HYDROCHLORIDE

#### Compound Information

|                           |                                                                 |
|---------------------------|-----------------------------------------------------------------|
| <b>Product Name:</b>      | ANHYDROTETRACYCLINE HYDROCHLORIDE                               |
| <b>CAS No.:</b>           | 13803-65-1                                                      |
| <b>Molecular Formula:</b> | C <sub>22</sub> H <sub>23</sub> ClN <sub>2</sub> O <sub>7</sub> |
| <b>Molecular Weight:</b>  | 462.88                                                          |
| <b>Revision Date:</b>     | 2026-04-15                                                      |

#### Analytical Information

| Tests                      | Specifications                   |
|----------------------------|----------------------------------|
| Appearance                 | Yellow solid                     |
| Enantiomeric Excess (HPLC) | 98% at 429 nm                    |
| Purity (TLC)               | 98%                              |
| Atmosphere                 | Inert gas                        |
| Melting Point              | 223 °C                           |
| Solubility                 | Soluble in ethanol, DMSO, or DMF |
| Chloride                   | 8.5%                             |
